PROGRAM

Puzzled about your college savings options?

Helping pay for a college education can be one of the most valuable gifts you can give a child. Unfortunately, it can also be one of the most expensive.

	2017-2018*	Cost in 10 Years	Cost in 18 Years
Community College	\$3,600	\$5,800	\$8,600

While you have several options, 529 education savings plans offer a range of investment choices that may fit your needs. A 529 plan also provides tax benefits, such as tax-free growth potential and federally tax-free withdrawals for qualified higher education expenses.* And anyone, including family and friends, can contribute.

*If a distribution is taken from a 529 plan but not used for a qualified expense, the portion of the distribution representing earnings is subject to ordinary income tax and a 10% federal penalty. Some states and states' 529 plans may also recognize certain elementary and secondary tuition expenses as a qualified expense. Contributions may be eligible for a state tax deduction or credit in certain states for those residents. Student and parental assets and income are considered when applying for financial aid. Generally, a 529 plan is considered an asset of the parent, which may be an advantage over saving in the student's name. Make sure you discuss the potential financial aid impacts with a financial aid professional. Edward Jones, its financial advisors and employees cannot provide tax or legal advice. Tax issues for 529 plans can be complex. Please consult your tax advisor about your situation.
